

## URGES LEGISLATION IN SPECIAL MESSAGE

### Roosevelt Again Prods Congress and Gives Rude Cuffs to Both Capital and Labor

#### Surprising Statements Made in the Epistle Which Were Not Heard in Either House During Sessions

Washington, April 28.—The President started Congress Monday afternoon with another special message, in which he urged the enactment of legislation which he had recommended in his annual message last December and in the two special messages which he transmitted on January 31 and March 25 respectively, but which the leaders of Congress had resolved should not go through at this session. Mr. Roosevelt laid particular stress upon the desirability of restricting the injunctive power of courts in labor disputes and reconstructing the Sherman anti-trust law so as to put into operation his scheme of Federal licenses for interstate corporations. He expressed gratification over the passage of the employers' liability law, although he thinks it imperfect, and is pleased over the enactment of certain specific measures which the leaders of the House and Senate through Representative Watson of Indiana, assured him a week or two ago they would try to put through before adjournment.

The message has the same fervid flavor which characterized the first special message which was sent in on January 31, for the President has drawn heavily upon his vocabulary of descriptive adjectives. He had every reason to believe that Congress would not pass an anti-injunction bill, amend the Sherman anti-trust law or amplify the powers of the Interstate Commerce Commission at this session, inasmuch as he was told by Representative Watson, speaking for Speaker Cannon, and also by the Republican leaders of the Senate, that this legislation had been postponed indefinitely, or until next winter. Therefore, it is not surprising that the lawmakers are wondering why he once more has insisted upon the passage of these measures. Of course the anti-administration Republicans are intimating again that the third-term germ is working in his system, and that his appeal in behalf of legislation favorable to labor may be designed to create an irresistible demand for his re-nomination at Chicago.

Following is the text of the message:

To the Senate and House of Representatives:

In my message to the congress of March 25, 1908, I outlined certain measures which I believe the majority of our countrymen desire to have enacted into law at this time. These measures do not represent by any means all that I would like to see done if I thought it possible, but they do represent what I believe can now be done if an earnest effort toward this end is made.

Since I wrote this message an employers' liability law has been enacted which, it is true, comes short of what ought to have been done, but which does represent a real advance. Apparently there is good ground to hope that there will be further legislation providing for recompensing all employees who suffer injury while en-

gaged in the public service; that there will be a child-labor law enacted for the District of Columbia; that the waterways commission will be continued with sufficient financial support to increase the effectiveness of its preparatory work; that steps will be taken to provide for such investigation into tariff conditions, by the appropriate committee of the house of representatives and by government experts in the executive service, as will secure the full information necessary for immediate action in revising the tariff at the hands of the congress elected next fall, and, finally, that financial legislation will be enacted providing for temporary measures for meeting any trouble that may arise in the next year or two, and for a commission of experts who shall thoroughly investigate the whole matter, both here and in the great commercial countries abroad, so as to be able to recommend legislation which will put our financial system on an efficient and permanent basis. It is much to be wished that one feature of the financial legislation of this session should be the establishment of postal savings banks. Ample appropriation should be made to enable the interstate commerce commission to carry out the very important feature of the Hepburn law, which gives to the commission supervision and control over the accounting systems of the railroads. Failure to provide means which will enable the commission to examine the books of the railroads would amount to an attack on the law at its most vital point, and would benefit as nothing else could benefit those railroads which are corruptly or incompetently managed.

Forest reserves should be established throughout the Appalachian mountain region wherever it can be shown that they will have a direct and real connection with the conservation and improvement of navigable rivers.

There seems, however, much doubt about two of the measures I have recommended—the measure to do away with abuse of the power of injunction and the measure, or group of measures, to strengthen and render both more efficient and more wise the control by the national government over the great corporations doing an interstate business.

**Injunctions in Labor Disputes.**  
First, as to the power of injunction and of punishment for contempt. In contempt cases, save where immediate action is imperative, the trial should be before another judge. As regards injunctions, some such legislation as that I have previously recommended should be enacted. They are blind who fail to realize the extreme bitterness caused among large bodies of worthy citizens by the use that has been repeatedly made of the power of injunction in labor disputes. These, in whose judgment we have most right to trust, are of the opinion that while much of the complaint against the use of the injunction is unwarranted, yet that it is unquestionably true that in a number of cases this power has been used to the grave injury of the rights of laboring (Continued on Page 7, Col. 3.)

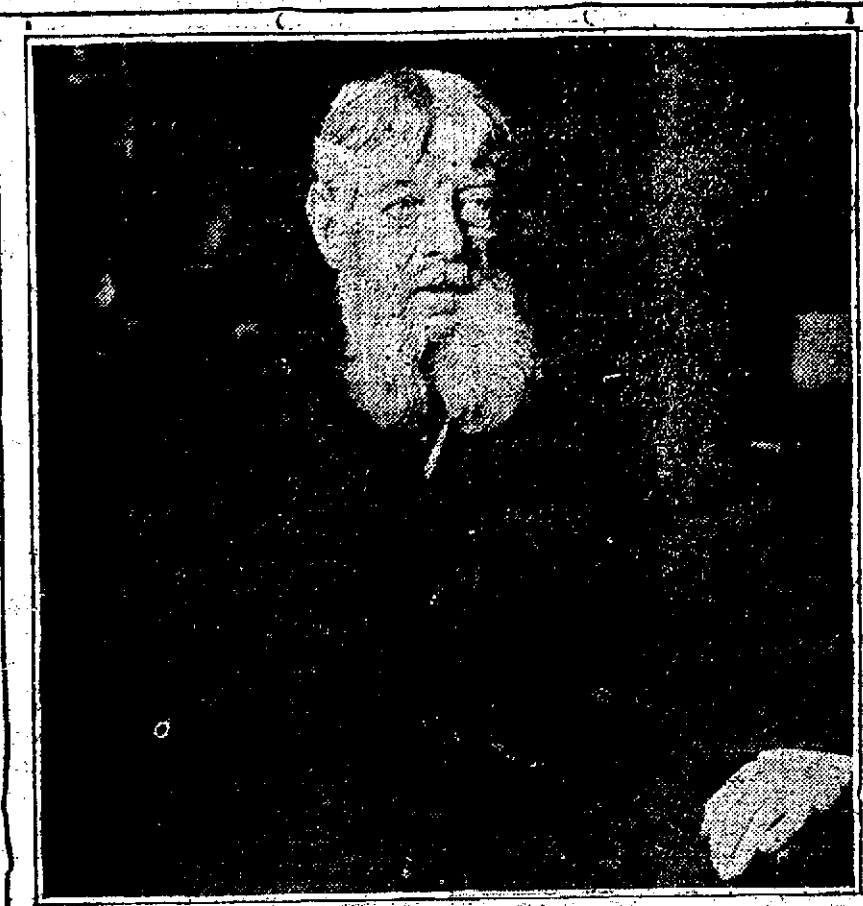

## TRUST FORFEITED ITS RIGHTS, NOW ASKS FOR ARMED INTERFERENCE

Washington, April 28.—Former Secretary John W. Foster is outspoken in protest against an armed demonstration against Venezuela in behalf of the Asphalt Trust. He declares in forcible terms that the question sought to be assumed by giving to the President authority to use the navy and army to enforce upon Venezuela the claims presented by the Trust, is wrong in principle, erroneous in law, and contrary to all precedents in our diplomatic history.

"I can see no necessity," said Mr. Foster, "for a naval demonstration against Venezuela. President Castro

is right in his contention that the claims alleged by the Asphalt Trust are matters to be adjudicated by the courts of Venezuela. The Trust has no legal ground on which to ask for intervention by our government. It is a principle established by the tribunals of all civilized nations, and particularly by the diplomatic practice of the United States, that a man who takes up arms against a friendly nation, or overt acts in opposition to the maintenance of the power of that friendly government, by that act forfeits all rights to appeal to his own

## 53 YEARS SERVICE WITH FEDERAL GOVERNMENT

COMMISSIONER JOHN A. SHIELDS

New York, April 28.—Hundreds of warm congratulations poured in upon United States Commissioner John A. Shields last week as the result of an announcement that it marked the close of his 53rd year of service under the federal government and the opening of the 54th year.

Few men have so wide an acquaintance as the commissioner and thousands who have never had occasion to meet him know him by sight and point

him out to strangers. More faithful criminals probably have passed before him than before any other judicial officer in the United States. A considerable proportion of the men who have been naturalized in the last generation have gone to him for their first papers. As clerk of the United States circuit court for this district he has had the handling of hundreds of juries and many of the men who have been reluctant to serve have become his firm friends.

## SITE SELECTED BY GOVERNMENT FOR NEW POSTOFFICE

The new Newark postoffice, a handsome federal building, will be erected at the southeast corner of East Main and First streets.

The government has appropriated \$100,000 for the structure and is now examining the title to the property, the preliminary details having been arranged.

The lot is 110 feet frontage on Main street and runs 200 feet on First street. It is owned by the Hotel Sherwood company and the government will buy it at a cost of \$18,500.

For many months the government has been endeavoring to find a suitable site but none of the few lots suggested filled the requirements in size, location and price.

Congressman Wm. A. Ashbrook upon taking his seat in the House of Representatives, immediately interested himself in the matter and was

WM. A. ASHBROOK.

instrumental in having the appropriation increased from \$90,000 to \$100,000. He co-operated with Newark citizens who were desirous of securing the federal building and gave valuable assistance in solving the problem.

Secretary of the Board of Trade J. M. Mayhew talked with many citizens about a site and in discussing the matter one day with Mr. Frank P. Kennedy, president of the Newark Trust company, the Sherwood Hotel site was suggested. It filled all of the government's requirements and Mr. Kennedy, who is treasurer of the hotel company, took the proposition before the hotel company directors. The price was fixed and it was offered to the government.

Mr. Kennedy made one or more

trips to Washington, accompanied by Attorney Charles W. Miller and Mr. Mayhew, prepared sketches and drawings, together with photographs of the surrounding property, including the Sherwood Hotel, St. Paul's and Trinity Episcopal churches. The sketches showed the location of the lot with reference to the two railway stations, the interurban and city car lines, the several hotels, the court house and the business section of the city.

When this matter was presented to the Washington officials the acceptance of the proposition was prompt and the federal officials congratulated the government upon being able to secure such a desirable location for the building.

Orders have been sent to District Attorney McPherson of Cincinnati to carefully examine the title to the property and this is now being done. The title is absolutely good and there seems to be nothing in the way of a prompt acceptance of the proposition in which event work on the building will doubtless soon begin.

It is understood that the building which will be somewhat similar to other federal buildings—one high single story structure built largely of stone. It is to be located so as not to detract from the beauty of the Sherwood Hotel and the spacious ground adjoining the building will be beautifully parked.

The solution of the postoffice problem is a good one—thanks to Congressman Ashbrook, Secretary Mayhew, Mr. Kennedy and the others who have been interested.

Owing to the prices of real estate in the business sections of the city, it was impossible with the funds appropriated to secure a location nearer the business center of the city, but a site that is altogether desirable has been chosen and it will undoubtedly give general satisfaction. It is only one block east of the court house.

Congressman Ashbrook, as events have proved, is the right man in the place. He has done very effective work in behalf of his soldier constituents and now he has been instrumental in getting an increased appropriation for the Newark postoffice and has assisted in clinching the proposition. Newark will now have her new postoffice building and it will be a beauty.

### Of Navy Will All be Smashed by the Pacific Fleet

STEAM 40,500 MILES

#### Will Swing Into Hampton Roads Next February at End of Trip

#### Will be in Communication With Washington at All Times During Voyage.

Washington, April 28.—The battleship fleet now on its way around the world cruise will have smashed two world's naval records when its swings in Hampton Roads next February at the conclusion of its trip.

The vessels will have then steamed approximately 40,500 miles or a distance equal to nearly twice around the globe. The fleet will have proved that it has an easy steaming radius for practical work of 3550 miles. That is the distance from Honolulu to Auckland, New Zealand.

Everyone of the battleships will be able to make this immense lap without replenishing her coal bunkers. The Illinois, it is true, will be obliged to store about 50 additional tons in her fire room and on deck, but she still will carry her own coal.

It is estimated that the fleet will have used on its twice-around the globe trip about 300,000 tons of coal. Considering the distance sailed, the places visited, the intervening target practice, etc., the "shake down" of the 16 battleships will be the greatest demonstration ever made in naval administration.

It is no secret that the long lap from Honolulu to Auckland gave the navigation bureau much concern. The policy of the department ever since the fleet started was to keep it in touch with cable stations as much of the time as possible.

It has been ordered that the auxiliaries Yankton, Glacier and Culgoa shall precede the fleet to the neighborhood of the Fiji Islands, whence there is a cable to Vancouver. These auxiliaries will be stationed at proper distances on the long stretch and will receive and transmit the news from the oncoming fleet to each other, and thence to the cable station at Fiji for transmission to Washington. It is also proposed to station a ship equipped with wireless telegraphy in Samoa so that no chance of communication shall be lost. It will be possible by this means for the navigation bureau to hear from the fleet constantly.

Without the aid of the wireless telegraph and this chain of floating telegraph stations, the fleet would be lost to the outside world for about 14 days. With the arrangements made by the navy department the ships will be as much within "speaking distance" as if they were a lot of toy ships sailing across a mill pond.

## THREE CENT FARE

On Cleveland Street Car Lines Will Go Into Effect Wednesday Morning.

Cleveland, April 28.—Mayor Johnson and the Municipal Traction company, which took over Cleveland's street railway system at midnight, announced today that a three cent fare would be put into effect at 5 a. m. Wednesday. All passengers are riding free in Cleveland today in celebration of Johnson's victory. Each anniversary of the settlement will be similarly observed. It will be known as Municipal Day.

## SUPREME COURT

Passes Up Constitutionality of County Salary Law, But May Take Action Later.

Columbus, O., April 28.—Because the Legislature will close active work before next decision day, surprise was expressed that the Supreme court did not Tuesday decide the Theobald case from Dayton involving the constitu-

tionality of the county salary law. Others think that it may mean that the court sees flaws in the law, but will shape matters as it did when it knocked out all municipal governments of the state at such time as to require an extra session of the Legislature to consider nothing else but one big question.

## BABE IN OATS SACK

STRANGE DISCOVERY WHILE UNLOADING GRAIN PURCHASED BY PALMER MAN.

Cried Lustily When Sack Was Opened and is Now Alive and Well and Will Live.

Palmer, Neb., April 28.—A sensation was caused here by the finding of a pretty girl babe in a sack of oats. The child was apparently two or three days old. Despite the fact that it had been stowed away in the sack for some hours, it began to cry lustily when the bag was opened, and it is now alive and well.

James Bothwell made the strange discovery. He was unloading oats, which he purchased yesterday, and the child was found in the first sack he opened. Bothwell bought the oats from a farmer living near town. The farmer and his wife are aged persons. They say they know nothing about the child.

## CLAD ONLY IN PURE AIR

PATIENTS AT A CHICAGO SANITARIUM TAKE DAILY STROLLS ON ROOF.

Residents of District Complain to the Police and Proprietor of Place is Arrested.

Chicago, April 28.—Dr. H. E. Lane, head of the Kosmos Hygienic Institute at 755 North Clark street, was arrested yesterday because men and women patients parade the roof of the sanitarium clad only in pure air.

Arthur R. Rokett, 767 North Clark street, is the complainant. He declares he feared to have guests because, should they glance at the sky line above the hospital, they were liable to see a man, or perchance a woman, outlined against the sky dressed even as a small boy who gambols about and plunges recklessly in the swimming hole in the summer time.

Others whose dress was almost equally as scarce paraded about the yard, and Rokett asserted he had lapped into a state of constant nervousness for fear that what transparent garments hung loosely from shoulders might, in a moment of carelessness, be allowed to fall to the ground. He concluded that he could stand it no longer and appealed to the police.

## ROMAN CATHOLICS

Celebrate Centenary of Establishment of Arch Diocese of New York Tuesday.

New York, April 28.—This was the big day of the centenary of the establishment of the Roman Catholic arch diocese of New York. Two princes of the church, Cardinal Michael Logue of Ireland, and Cardinal Gibbons of Baltimore, a dozen archbishops, a half hundred bishops and monsignors and priests of lesser degree to the number of more than 500, were the chief actors in today's proceedings. The feature was high pontifical mass, celebrated in St. Patrick's cathedral by Cardinal Logue, at which Cardinal Gibbons preached the sermon.

## STATE HAS LOST \$165,332.92 THROUGH EXTRAORDINARY SYSTEM OF BANKING

COLUMBUS, O., April 28.—An extraordinary system of banking followed by the state departments, has resulted in a loss to the people of \$165,332.92. This conclusion has been reached by Expert Accountant Tanner, employed by the Howe probers to go over the books of the various departments. He has filed his report with the committee. He found that during 1906 and 1907, Treasurer McKinnon carried an average monthly balance of \$420,830.65, in active depositories, paying but 1-2 per cent interest. This balance was maintained by immediately making a new deposit to cover any money checked out. To do this he drew either on inactive depositories, paying 2 1-2 per cent, or took the cash from the treasury vault.

## "SKIDOO"

### Number Sustained Piles Amendment in the Senate

VOTE AN OMEN OF ILL

#### For the Administration Forces Were Very Badly Beaten

#### Only Four Democrats Favored the President's Four Battle- ship Idea.

Washington, April 28.—Less than one-third of the Senate stood by the President in his demand for four battle ships Monday afternoon. The amendment offered by Senator Piles of Washington, doubling the number of such vessels provided for in the naval appropriation bill, was defeated by a vote of 50 to 23. When the vice president announced, "on this question the yeas are 23," it seemed as though a shudder ran through the administration forces in the chamber. Was the number an ill omen, and what did it portend for the administration besides the repulse of the President in his fight for four Dreadnoughts? Some of the superstitions of solons inquired of themselves. Others appeared to glare resentfully at Senator Beveridge of Indiana, for leading a fight which culminated in such a hoodoo climax.

Of the 23 Senators who voted for four battle ships 19 were Republicans and 4 were Democrats, the latter being McCready and Foraker of Kentucky; Owen of Alabama, and Taylor of Tennessee. Of the 50 Senators who voted against the President 18 were Democrats and 32 Republicans. The Republicans who supported the President were for the most part the less influential members of the majority.

Among the Republicans who voted for two battleships were the leaders of the body—such men as Aldrich, Hale, Crane, Culom, Frye, Gallinger and Foraker, and there was a dual significance in the attitude of the Republican leaders.

In the first place they were opposed to a spasmodic increase in the naval strength because there is no such thing as a war cloud on the international horizon, and for the further reason that the expenditures of the government are running away ahead of the revenues. In the second place, they looked upon the President's fight for four battleships as an attack upon the organization of the Senate, which is now in their hands, and they were determined that legislation should remain in the control of the Senate and not be transferred to the White House.

## CYCLONE KILLS MANY PEOPLE

Hongkong, China, April 28.—Those killed in the cyclone in Hangow are now believed to number at least 500. It is certain that there were many additional deaths among crews of numerous vessels wrecked by the storm. The accurate estimate is as yet impossible.

## SITE SELECTED

(Continued from First Page.)  
ernment has accepted the Sherwood hotel site at \$18,500.  
The building will be set back on the lot, the front being dedicated to park purposes.  
The supervising architect told Congressman Ashbrook today that as soon as the title is passed upon, the consideration will be paid, the plan will be prepared, and by next January the contract will be let. The proposed plans call for a one story building, height above ground to be 40 feet to cornice, and will contain 6000 square feet.  
The law provides that no public building shall be built within 46 feet of any exposure, and as the east corner of the postoffice will be within 27 feet of the west veranda of the Sherwood, Congressman Ashbrook got a special law passed authorizing the government to accept the site and erect a building with a 27 foot exposure. The work has required much detail, and Mr. Ashbrook has been very quiet, but persistent in his effort to accomplish the desired result.

**LANCASTER'S NEW BUILDING.**

# CANAL BILL AWAITS ACTION OF SENATE

## Passage of Representative Howard's Bill in the House Creates Great Interest in This City

### Licking's Busy Representative Worked Hard and Earnestly in Its Behalf—The Measure as Passed.

As exclusively announced in this paper Monday evening, the bill for the abandonment of the canal in this city was passed late Monday afternoon in the House of Representatives and the measure is now in the Ohio Senate with a good prospect for passage.

The news created great interest throughout the city Monday evening as the canal problem has long been under discussion and strenuous efforts have been made at various times to secure its abandonment or improvement.

Representative Robert W. Howard introduced a bill in the House several weeks ago. Similar canal bills from other members were introduced and they were all referred to the Board of Public Works which recommended a substitute bill known as House Bill No. 1035 by Mr. Crawford of Athens county.

When the measure came up in the House Monday afternoon Mr. Howard made a strong argument in favor of its passage, and was energetic in his personal appeal to members of the Legislature. He worked hard and won. The measure passed and is now in the Senate. Senator Atwell will now use his best efforts to secure favorable action in the Senate.

Following is a copy of the measure as passed by the House:

**A BILL**

To provide for the abandonment of certain portion of the canal to which the state holds the title and fee, and to provide for the leasing and selling of the lands connected therewith.

Be it enacted by the General Assembly of the State of Ohio:

Section 1. That the portion of the Hocking canal between the south line of Main street in the city of Lancaster, in Fairfield county, and the lower end of the lower canal lock in the city of Nelsonville, Athens county, Ohio, also all of that portion of the Ohio canal lying within the city of Newark, and in the county of Licking, be and the same is hereby abandoned for canal purposes.

Section 2. That the state board of public works and the chief engineer of the board of public works acting jointly, shall cause such surveys to be made of said canal property as in their judgment is necessary to define and establish the boundaries and lines of said canal property, including basins, reservoirs, wide waters, towing-path and berms embankments, and any state lands connected therewith, together with such maps and plats of the same as will facilitate the leasing and selling of said canal lands, which plats shall be preserved as permanent records in the office of the state board of public works.

Section 3. As soon as such surveys and plats have been completed, the state board of public works and the chief engineer of the public works, acting as a joint board, shall proceed to lease and sell said canal lands in strict conformity with the various provisions of the Revised Statutes of Ohio relating to the leasing and selling of state canal lands, except that the bed and banks of said abandoned canal may be included in any lease or sale of such canal lands, and whenever in the judgments of said board of public works and the chief engineer of the public works, with the approval of the governor of the state of Ohio, the interests of the state will be better subserved by selling any tracts of such abandoned canal lands, rather than by leasing them, the same may be sold; provided, however, that the board of public works and chief engineer shall have power to reject any or all bids.

Section 4. The county commissioners of any county likewise the council of any municipality through which said abandoned canal passes, shall have the right to remove all existing bridges crossing any portion of said abandoned canal over which public highways or the streets of any municipality pass, and to grade such highways and streets by filling and grading across the channel and banks thereof, and to drain the water from any portion of said abandoned canal where the same is deemed necessary for sanitary reasons, and the council of any municipality through which said abandoned canal passes shall also have authority to construct and maintain a sanitary sewer beneath the bed of any portion of such abandoned canal, both within the limits of such municipality and far enough be-

yond such corporation limits, to secure a suitable terminal for the same, provided, however, that the same shall be commenced and completed within two years from the date of approval of this act; but before the construction thereof is commenced, complete plans and specifications for the construction thereof shall be filed with, and be approved by the chief engineer of the public works; there is, however, reserved to the state of Ohio, its lessees, grantees, and their assigns an unobstructed right-of-way, for any and all purposes across the highways and streets extended across said abandoned canal as provided for above.

Section 5. All accounts of expenses incident to surveying, platting and monumenting said abandoned canal lands shall be verified and approved by the chief engineer and the board of public works, and paid out of the canal funds, or other funds provided for that purpose.

Section 6. Nothing in this act shall interfere with any leases, right or privileges heretofore granted by the state of Ohio and in force at the date of approval of this act; nor to release any person, firm or corporation from any contractual liabilities heretofore incurred. Nor shall any sale or lease be made to any person or corporation until after all obligations or indebtedness to the state by said person or corporation shall have been justly paid.

Section 7. That the act entitled, "An act to provide for the abandonment of the Hocking canal for canal purposes, and for leasing the same to the Columbus, Hocking Valley and Athens railroad company," passed May 13, 1894 (Vol. 91, O. L. page 327), also the act entitled, "An act to amend sections 2 and 6 of an act entitled, 'An act to provide for the abandonment of the Hocking canal and the leasing of the same to the Columbus, Hocking Valley and Athens railroad company,' passed May 13, 1894, (91 O. L. 327), as amended April 23, 1898 (93 O. L. page 216), passed April 16, 1900, (94 O. L. page 236), be and the same are hereby repealed.

## CALL FOR ANNUAL MAY MEETING

Of the Licking County Democracy to be held in Newark Saturday, May 2, 1908.

At a meeting of the Democratic County Central Committee, held on Saturday, March 28, 1908, it was decided that the annual May Meeting of the Democracy of Licking county should be called to meet in Newark on Saturday, May 2, and shall be called to order at 10 o'clock a. m. by the chairman of the Democratic Central Committee, who shall be recognized as temporary chairman of the meeting until the committee on permanent organization shall have reported.

It shall be the business of the temporary chairman of said convention to announce a committee on permanent organization, consisting of one member from each precinct in the city of Newark, and each township and precinct in the county, said committee to be selected by the Democratic voters present acting separately.

In like manner committees consisting of one member from each township, ward and precinct shall be chosen as follows:

Committee on time and mode of making nominations.  
Committee to select and report delegates to the State convention, the Cincinnati convention of the Fifth Ohio Circuit, the Congressional convention of the 17th Ohio District, and the Senatorial convention of the 15th Ohio District.

The committee on permanent organization shall at once proceed to elect and report to the convention a president, two vice presidents and two secretaries of said convention.

The other committees as above named shall meet at once to perform their duties and make their respective reports to the convention.

In voting on the reports of the committees on all questions, resolutions, or any other business before the meeting, the secretary shall call the roll

of the townships and wards and each township and ward shall be entitled to one vote for every 25 votes cast for Hon. Samuel H. Hoskins for secretary of state at the November election of 1906, and one vote for every fraction of 13 votes.

The Democrats present from each township and precinct shall constitute the delegation from the same, and the votes shall be cast as they direct by one of their members chosen by themselves.

Each township and precinct will be entitled to the following number of votes:

## NEW FACTORY FOR NEWARK

C. H. Traxler & Son have secured a five year lease on a building and lot on the canal, between Fifth and Sixth streets, and will install machinery and begin the manufacture of wooden handles. The new concern will employ quite a number of men.

## INFLAMMATORY RHEUMATISM

Most Treatments Are Unsatisfactory but Dr. Williams' Pink Pills Have Cured So Many Stubborn Cases That They Command a Trial.

It is unnecessary to tell the sufferer from inflammatory rheumatism that the ordinary treatments for this disease are unsatisfactory.

Physicians are not of one mind on the subject but the highest authorities hold that rheumatism is a disease of the blood. All admit that in attacks of rheumatism there is a marked and rapid thinning of the blood. This is a condition that a treatment with Dr. Williams' Pink Pills at once arrests and corrects. The thin blood is enriched, the strengthened organs of the body throw off the poisonous impurities and the patient gets well.

Mr. John F. Crichton, a retired grocer, of 1237 Fulton street, Chicago, Ill., and a veteran of the Civil war in which he served as a member of Co. A, 144th Illinois Infantry, bears witness to this truth. He says:

"I was afflicted with inflammatory rheumatism for twenty years and had received only temporary relief from the doctors. About three years ago I was helpless in bed with it. I could not use either hand or foot for over two months and suffered intense pain. My limbs were swollen and I could not move at all without great pain. I had sleepless nights and thought I would never be able to get around again. My friends and comrades thought I was going to die."

"I had paid out a lot of money in doctors' bills but was not cured. One day an old war comrade urged me to try Dr. Williams' Pink Pills as he knew of cases they had cured. Before I had taken them a great while, I was feeling much better. I improved rapidly and was able to get out of bed and move around. I am now in perfect health and have not had a touch of rheumatism in any part of my body since."

Dr. Williams' Pink Pills are sold by all druggists, or will be mailed, postpaid, on receipt of price, 50 cents per box; six boxes for \$2.50 by the Dr. Williams Medicine Co., Schenectady, N. Y.

## TO NEWARK BUSINESS MEN

(By Herbert Kaufman.)  
Xerxes once led a million soldiers out of Persia in an effort to capture Greece, but his invasion failed utterly because a Spartan general had entrenched a hundred men in a narrow mountain pass which controlled the road into Lacedaemon. THE MAN WHO WAS FIRST ON THE GROUND HAD THE ADVANTAGE.

Advertising is full of opportunities for men who are FIRST on the ground.

There are hundreds of advertising passes waiting for some one to occupy them. The first man who realizes that his line will be helped by publicity has a TREMENDOUS OPPORTUNITY. He can gain an advantage over his competitors that they can never possess. Those who FOLLOW him must not only INVEST AS MUCH TO GET AS MUCH, but they must as well spend an extra sum to COUNTERACT the influence that he has ALREADY ESTABLISHED in the community.

Whatever men sell, whether it is actual merchandise or brain vibrations, can be MORE EASILY sold with the aid of advertising. Not one half of the businesses which SHOULD be exploited are appearing in the newspapers. TRADE GROWS AS REPUTATION GROWS AND ADVERTISING SPREADS REPUTATION.

If you are engaged in a line which is waiting for a newspaper pioneer, realize what a wonderful chance you have of being the first of your kind to appeal directly to the public. You stand a better chance of leadership than those who have handicapped their strength by permitting you to GET ON THE GROUND before they could outstrip you. You gain a prestige that those who FOLLOW you must spend more money to COUNTERACT.

If your particular business is SIMILAR to some other trade or business which has ALREADY been introduced to the reading public, it's up to you to start in RIGHT NOW and join your competitors in contesting for the attention of the community. The longer you DELAY the more you DECREASE your chances of SURVIVING. Every man who outstrips you is another OPPONENT who must be met and grappled with for THE RIGHT OF WAY.

## FORFEITED ITS RIGHTS

(Continued from Page 1.)  
government for relief, or protection from the consequence of his acts.

"In the case of Venezuela, all claims other than those of the Asphalt Trust sink out of sight when there is prospect of action. The State Department records show that when 'agreement for arbitration of claims had been reached, the United States presented only the case of the Trust. Castro rightly refused to accept such an arbitration scheme."

"When we examine the records we find that the Asphalt Trust's own officials testified under oath that the Trust has paid \$100,000 to Gen. Matos several months before a gun had been fired or a squad of men equipped in the insurgent forces of which the Trust expressed so much fear. They paid to him or his agents \$45,000 more, and gave orders for the supply of food and ammunition to bodies of insurgents. Proofs are plenty that the real headquarters of the Matos rebellion were located in the offices of the Asphalt Trust. Many of these proofs of record are eliminated from the papers sent to the Senate by the State Department as a complete statement of the case. But they exist on record, and can be seen by any one interested."

"Now if payments of large sums of money to men engaged actively in fomenting rebellion, and furnishing material aid and comfort to bodies of men in actual insurrection do not bring this Trust within the prohibition stated above, my reading of the law is at fault. I assert, that the Trust is without standing in the court, and I have cited to the Senate committee the authorities upon which I base my conclusion."

Discussion of the political aspect of the move for armed intervention in Venezuela is extending. Democratic leaders in Congress are not slow to see what a powerful weapon is hereby being forced for use at a critical stage of the presidential campaign. A call to the colors would distract public attention from campaign issues, and an appeal for upholding of the national honor would, if made at the psychological moment, align many wavering voters under the Roosevelt banner. This act alone leads opponents of the

Trust to fear that jingo action may be taken by the Republican Senate.

## NEWARK BOY

WITH ADMIRAL EVANS' FLEET WRITES INTERESTING LETTER TO RELATIVES.

Is on Board the Kearsarge—Has Been at Sea Fifty-five Days and in Port Thirty-two.

Mr. T. J. Evans, Newark lad, was a well-known employee of the Heisey glass plant, and who is a member of the crew of the U. S. S. Kearsarge, of the fleet now in the Pacific, writes a very interesting letter descriptive of the trip to his uncle, Mr. E. E. Kinsley, of 76 Columbia street. The letter, a part of which is given below, was written from San Diego, Cal., under date of April 14. The letter follows:

Dear Uncle and Grandpa:—We dropped anchor off Hotel Del Coronado at 1:15 and were from 4 o'clock Sunday, April 8th, on the way. We had a very pleasant voyage and no accidents. We were met about 30 miles out by the steamer, "State of California." Tomorrow we will parade in San Diego. We received free fruit from the people of San Diego today and several days in Magdalena Bay. We are given a hearty welcome here by all the people and what I can see of the city from the ship looks fine and especially Hotel Del Coronado and the beach, which looks grand.

Tonight we illuminate ship and display our searchlights. The tender "Yankee" was in here when we arrived, with mail for us. I will tell you more about the city when I come back from shore and will try to get you some souvenirs.

Yesterday was "pay day." Pay day in the navy is the biggest day we have and we are always looking for it too, you may bet.

Do you ever see any of my friends that I used to work with in the glass house? I thought there was only one more man on here beside myself from Newark, but I found another fellow by the name of Smith. He used to work at Heisey's glass house. \* \* \*

Mr. Reed gives an extensive and very interesting chronology of the events observed from day to day from December 16th up to the time of writing the letter.

He states that on March 11th the fleet left land, and on the 12th dropped anchor in Magdalena Bay, Mexico. The distance from Callac to Magdalena Bay is given as 3010 miles. He stated that although the fleet steamed a total distance of 13,000 miles, was at sea 55 days and in port 32 days, no deaths or serious illness occurred on the Kearsarge during the cruise. The ship has 35 officers and 700 men.

Mr. Reed says the fleet left Magdalena Bay on April 11th and arrived in San Diego at 11:30 on April 14th. A post script to the letter states that the 5000 sailors paraded in San Diego on the 15th and were cheered from the time they landed until they marched back to the ships.

**Neighborhood Favorites.** Mrs. E. D. Charles, of Harbor Maine, speaking of Electric Bitters says: "It is a neighborhood favorite here with us." It deserves to be a favorite everywhere. It gives quick relief in dyspepsia, liver complaint, kidney derangement, malnutrition, nervousness, weakness and general debility. Its action on the blood, as a thorough purifier makes it especially useful as a spring medicine. This grand alternative tonic is sold under guarantee at F. D. Hall's drug store, 50c.

## MANY STORMS

Predicted by Hicks, the St. Louis Weather Prophet—Tornadoes and Earthquakes.

St. Louis, April 28.—May is to be a continuous performance of tornadoes, thunderstorms, hail and frost. Rev. I. R. Hicks, renowned as a weather prophet, has hung out the danger signals in his long-distance forecasts for the month, and trouble is feared by those who have faith in his prognostications.

The merry month is to open with a series of violent thunderstorms, approaching tornado violence in the West, especially on the 3d and 4th. Low barometer, sultriness, stifling south winds and restless clouds indicate an almost positive danger at this time, says Mr. Hicks. The country at large is to be visited with heavy rains and hail, followed by late snow squalls and sleet. Frosts will be natural, and much probability of seismic disturbance.

Careful watching is advised by the St. Louis prognosticator from the 7th to the 24th, and frost is due from the 7th to the 11th generally. High temperature, daily rains and thunderstorms, with probable tornadoes, are on the menu for the 13th to the 16th, and floods over wide sections follow immediately. Much cooler weather is due from the 16th to the 19th. From the 19th to the 22d not so seriously threatening, but look out for tornadoes, says Mr. Hicks.

Quiet and calm and much warmer until the 24th will usher in the most dangerous period of the month, and Monday, Tuesday, and Wednesday, the 25th, 26th and 27th, storms may be expected to become very threaten-

ing, if not tornadoic. The 27th is the twelfth anniversary of the St. Louis cyclone. The danger area extends over the central and western parts of the country. The month is to end in comparative peace, although seismic disturbance is possible from the 27th to the 31st.

## GRANVILLE

UNIVERSITY SOCIETIES HOLD MEETINGS AND CARRY OUT INTERESTING PROGRAMS.

Appointed to Fellowship in University of Chicago—People Coming and Going.

Granville O., April 28.—At the last regular meeting of the Denison Scientific Association, Dr. Coghill presented a paper, illustrated by reflectoscope, on "The Nerve Current." The paper was very interesting and highly instructive. The next meeting of the association will be held Thursday afternoon, May 7, when the department of botany will be in charge, with section reports by Professors Thack and Carney.

At the last regular meeting of the Irving Literary society the following program was carried out: Prophecy, R. M. Albaugh; Essay, I. B. Smith; Extempo C. E. Warner; Sally C. K. Boyer, Extempo, W. S. Fisk.

At the last meeting of Cicero an unusually interesting program was carried out, one of the most interesting features of which was the debate on the question, "Resolved, That the United States should have control of all means of production." The affirmative side of the question was discussed by Mr. Waybright and the negative by Mr. Phillips. The judges decided in favor of the affirmatives.

Among the recent appointments to fellowships in the University of Chicago is that of Roger M. Jones, Denison '05, to pursue the study of Greek. In all 91 fellowships were awarded.

Mr. and Mrs. Charles Morrison of Bucyrus, O., who have been visiting here for some days, have returned home.

Mr. B. Zerbe, who lives on the Horseshoe pike, left for Granville Saturday morning to visit his daughter, Mrs. W. H. Miller, the wife of Rev. Mr. Miller, who is pastor of the Methodist church in Granville. Mrs. Zerbe has been visiting her daughter for some time, and she will return home with her husband this week.—Delaware Journal-Herald.

Mr. and Mrs. George Whittier of Urbana, who has been visiting in Granville and vicinity during the past week, returned home Monday.

Miss Florence Reeder of Mansfield, is visiting relatives and friends here for a few days.

COSMOPOLITAN SOCIETY PRECIPITATES THE TROUBLE AT A MIXED DINNER.

Propositions of Inter-Marriage Listened to by White Women Sitting Alongside Negroes.

New York, April 28.—New York, the haven of every conceivable sect and creed and ordinarily tolerant to the verge of indifference, is today in a fever of heat over the race question. Morning newspapers detailing the doings of a dinner held in Brooklyn last night by the Cosmopolitan society, precipitated the trouble. The spectacle of young white women seated side by side with negroes, and enthusiastic acclamations by all the diners, of a proposition of inter-marriage as the solution of the race problem have proved too much. There were 20 white girls and women at the dinner. There was also half a dozen white men. The white girls sat for the most part between negro men and listened to a discussion of inter-marriages of the races.

With the mercury just reaching the 52 mark, about 200 fans were at the lot yesterday to see the team from Convict town go down in defeat before the Molders and down to the last place on the ladder in the race. The game was Newark's from the first, and but for a letting down of "Uncle Joe" in the ninth, the Tigers would have secured but three hits off his delivery.

Newark struck her early inning stride and pounded three runs across in the first before the Convicts were fully aware of what was taking place. Abbott grounded out, as first man up. Snyder walked and stole second. Then just for luck he took a lead and annexed the third corner. Locke fled out to Channell in right and Snyder scored. Gygli looked kindly at the ump and was given first. Smith followed suit and was also passed. Cap Murray switched his bat from one hand to the other and then swung. It was a mighty swat and Murray took three bags on it. Gygli and Smith scoring. Dowling grounded out.

Nothing was doing for either side in the next two frames but in the fourth Mansfield dropped one on home. Flood went out, Dowling to Gygli, Channell hit and scored on Biery's triple after Kettler fled out to Snyder. Jewell fled out to middle field. Dowling hit a long one to middle that was raked in by Quinn after a beautiful run in which a somersault was mixed in for good measure. Quin held tight to the hide, though, and Dowling was out. Burke fanned and then with two men down another slaughter was started and Mr. Bucholz was the victim.

Joe Locke doubled just to show the boys he was working to win the game and he pranced to the home post when Abbott tripled. Doc came home to mother when Snyder sloughed one on the nose for three bags. Frank Locke wanted to show those assembled that he was working with his brother for the honor and glory of Newark, and he doubled, scoring Snyder. Gygli ended the run getting by flying out to Flood.

In the seventh the Molders batted another run across when after Snyder was out on a fly to Kettler Locke tripled and after Gygli was down, scored on Smith's single. Murray sent one down to Channell and was out. Neither the Tigers nor the Molders did any scoring in the eighth, but in the ninth the Tigers got busy.

Biery struck out when Joe shot his henders across to him. Jewell got his first hit of the game, a triple. Reynolds grounded out and Allen singled, scoring Jewell. Bucholz tripled and Allen scored, and when Quinn connected for a single Bucholz registered. Uncle Joe tightened up then and struck Flood out, ending the game.

### WHIFFS.

Monday certainly was slugging day at the ball lot, six three baggers, two doubles and eight singles. Going some.

Yesterday was about as cold as the Saturday when Toledo played here. These sudden changes are hard on the players.

Newark had five stolen bases on Allen, the backstop, secured by Mansfield from Wheeling.  
Quinn's catch of Dowling's drive in the fourth was a dandy. Running at high speed, the center gardener caught the ball on his shoestrings, lost his balance and rolled over several times, and while lying on the ground held the ball up to show that he had it. It was a pretty piece of work and he was loudly applauded.

Locke pitched great ball and had good team work behind him. Uncle Joe is better than ever this year, and will win many a game.

Frank Locke had a great day with the stick, and his double and triple were away above par.  
The game today is the last on the home ground for several days. The team goes to Lancaster tomorrow to open the season there, and the Tigers go home to open with Marion. From Lancaster the boys go to Mansfield for a series of three games. They at home again May 5 for three games with Marion.

### Marion 9, Lima 2.

Marion O, April 28—Even Laddy Linke couldn't stop Marion's batting line and they simply counted the ball all over the field for a total of nine runs. In the sixth inning with two on, Farrell drove a home run. Then every man on the team took a crack at the ball and when the inning closed Marion had scored six runs. The Lima club looked easy for Marion yesterday and Marion fans are now confident of a brilliant future. Manager O'Day was benched in the second inning for disputing a decision of Umpire Sheldon. The umpire was later forced to retire on account of being hit by a line drive and Pitchers Burke and Quailley succeeded him. Score:

## SHORT NEWS FROM OVER THE CIRCUIT

Lima, Lancaster and Mansfield are preparing for big days tomorrow when the teams open the grounds and the season in those cities. It is claimed Jude, the Indian castoff from Columbus, who has been sent to Lima, has been sold to Lincoln, Neb., and Reilly has been sent up to the Columbus farm to take his place.

The grass is high in the outfield at Springfield and many balls have been lost to the fielders this season. Can't look about that, here, we have a ground keeper that knows how to keep the grounds in shape.

Newark opens the season at Lancaster, Marion at Mansfield and Springfield at Lima. All the rivals have been thrown together again for the second openings.

As a result of the Marion series defeat, Manager McVey of the Mansfield Tigers has tied the can to Fielder Gorman, Edfield, pitcher, and Reilly, catcher. McVey didn't like the showing made by any of the men.

Dr. Bailey will toss the opener against Marion at Mansfield. With good weather big crowds ought to turn out to see all the games.

That the opening will rival in point of attendance those held in Newark, Marion and Springfield last Thursday.

"Windy" Lotshaw of the Marion Diggers claims that several of the Mansfield players tried to trip or spike him while he was running bases. It is hard to believe for the Mansfield men have always been "way up in G" as far as clean playing is concerned.

Manager Dunnigan, the new manager of Lima didn't like the way Clark did things in that city and he has had a bunch of men at work changing the entrances and building an addition to the bleachers. Both the infield and the outfield have been gone over and played in shape for the opener. The outfield is said to be rough and the handling of ground balls is more luck than science.

## FOREIGN CONSULATES

THREATENED BY FANATICAL MOSLEMS AND SACKING OF SAME MAY OCCUR.

Believed That Raisuli Has Killed, Although He May Have Escaped from Pursuers.

Paris, April 28—Alarmed by Tanguier reports that Fez is virtually in the hands of fanatical Moslem bands who threaten the sacking of the foreign consulates, the French government is keeping every line of communication into Morocco hot with demands for definite information. The country is in such a state of confusion owing to the renewal of activity by Mulai Hafid, pretender to the crown, that nothing certain has yet been learned.

Reports continue conflicting concerning the bandit Raisuli's fate, one account being that he escaped though ambushed and fired on by tribesmen with whom he refused to divide the reward for Kaid Sir Harry MacLean. The general opinion is, however, that he was killed.

## WILL BE MARRIED IN NEAR FUTURE

Rome, April 28—That Prince Heil de Sagen and Mme Anna Gould have arranged to be married in Paris in the near future and return here to live is asserted on excellent authority. The story is that they will leave here for Florence in a few days and go from there directly to the French capital and that the wedding will immediately follow.

### TESTED AND PROVEN.

There is a Heap of Solace in Being Able to Depend Upon a Well-Earned Reputation.

For months Newark readers have seen the constant expression of praise for Doan's Kidney Pills, and read about the good work they have done in this locality. Not another remedy ever produced such convincing proof of merit.

M. B. Melick, 61 W. Church St., Newark, Ohio, says: "I highly recommend Doan's Kidney Pills as I used them for kidney trouble and obtained great benefit. I had a constant dull aching across the small of my back which would change to sharp twinges whenever I stopped or overexerted myself in any way. I also had pains in my hips, sometimes so severe that I was forced to take to my bed. I tried liniments and used numerous remedies but obtained no relief until Doan's Kidney Pills were finally recommended to me and I procured a box at Crayton's drug store. After a short use I found them to be just the remedy my system required as they benched my troubles and I have had no return of them since." (From statement given November 5, 1904.)

### CONFIRMED PROOF.

On Nov. 26, 1907, Mr. Melick said: "I gladly confirm everything I said in my former testimonial for Doan's Kidney Pills, as I have not suffered from backache or rheumatism since they cured me. I am convinced that Doan's Kidney Pills deserve all the praise given them."

## Wood-Shine

The Varnish That Lasts

Most varnishes are made of rosin and show the slightest scratch. Wood-Shine is made by a special process and will not show scratches. It holds its brilliant luster and lasts indefinitely. It is easy to treat a floor with Wood-Shine, and easy to keep it clean afterwards. Wood-Shine hardens the surface and makes a soft wood floor like hardwood. Apply a coat or two of Wood-Shine to a piece of oil cloth or linoleum and it will wear twice as long.

Come in and the Little Woodshiners will show you how you can add to the comfort, convenience and economy of your housekeeping with the aid of Wood-Shine.

Wood-Shine comes in the following colors:—Light Oak, Dark Oak, Mahogany, Transparent, Cherry, Blood, Green, Walnut, Flat White, Gloss White, Flat Black, Gloss Black, Porch Chair Red, Porch Chair Green, and Under Coat. Prices: 1 gal. \$2.50, 1/2 gal. \$1.35, 1 quart 75c, 1 pint 40c, 1/2 pint 25c. A 25c can of Wood-Shine will cover 50 square feet of average surface with one coat, or 25 square feet with two coats.

## PRESIDENT'S MESSAGE

(Continued from Page 1.)

men. I ask that it be limited to some such way as that I have already pointed out in my previous messages, for the very reason that I do not wish to see an embittered effort made to destroy it. It is unwise stubbornly to refuse to provide against a repetition of the abuses which have caused the present unrest. In a democracy like ours it is idle to expect permanently to thwart the determination of the great body of our citizens. It may be said often is the highest duty of a court, a legislature, or an executive, to resist and defy a gust of popular passion, and most certainly no public servant, whatever may be the consequences to himself, should yield to what he thinks wrong. But in a question which is emphatically one of public policy, the policy which the public demands is sure in the end to be adopted, and a persistent refusal to grant to a large portion of our people what is right is only too apt in the end to result in causing such irritation that when the right is obtained it is obtained in the course of a movement so ill-considered and violent as to be accompanied by much that is wrong. The process of injustice in labor disputes, as well as where state laws are involved, should be used sparingly, and only when there is the clearest necessity for it, but it is one so necessary to the efficient performance of duty by the court on behalf of the nation that is in the highest degree to be regretted that it should be liable to reckless use, for this reckless use tends to make honest men desire so to hamper its execution as to destroy its usefulness.

### Class-Consciousness.

Every far-sighted patriot should protest first of all against the growth in this country of that evil thing which is called "class-consciousness." The demagogue, the sinister or foolish socialist visionary, who strives to arouse this feeling of class-consciousness in our working people, does a foul and evil thing, for he is no true American; he is no self-respecting citizen of this republic; he forfeits his right to stand with manly self-reliance on a footing of entire equality with all other citizens, who bow to no envy any greed, who erects the doctrine of class-hatred into a shibboleth, who substitutes loyalty to men of a particular status, whether rich or poor, for loyalty to these eternal and immutable principles of righteousness which bid us treat each man on his worth as a man without regard to his wealth or his poverty. But evil though the influence of these demagogues and visionaries is, it is no worse in its consequence than the influence exercised by the man of great wealth, or the man of power and position in the industrial world, who by his lack of understanding of, still more by any exhibition of, uncompromising hostility to the millions of our working people, tends to unite them against their fellow-Americans who are better off in this world's goods. It is a bad thing to teach our working people that men of means, that men who have the largest proportion of the substantial comforts of life, are necessarily greedy, grasping and cold hearted, and that they unjustly demand and appropriate more than their share of the substance of the many. Stern condemnation should be visited upon demagogue and visionary who teach this untruth and even sterner upon these capitalists who are in truth grasping and greedy and brutally disregard the right of others, and who by their actions teach the dreadful lesson far more effectively than any mere preacher of untruth. "Class-grievance" left too long without remedy breeds "class-consciousness," and therefore class-resentment.

### Anti-Trust Law.

The strengthening of the anti-trust law is demanded upon both moral and economic grounds. Our purpose in strengthening it is to secure more effective control by the national government over the business use of the vast masses of individual, and especially of corporate wealth, which at the present time monopolize most of the interstate business of the country, and we believe the control can best be exercised by preventing the growth of abuses, rather than merely by trying to destroy them when they have already grown. In the highest sense of the word this movement for thorough control of the business use of this great wealth is conservative. We are trying to steer a safe middle course, which alone can save us from a plutocratic class favoritism on the one hand, or a socialistic class government on the other, either of which would be fraught with disaster to our free institutions, state and national. We are trying to avoid alike the evils which would flow from government ownership of the public utilities by which interstate commerce is chiefly carried on, and the evils which flow from the riot and chaos of unrestricted individualism. There is grave danger to our free institutions in the corrupting influence exercised by great wealth suddenly concentrated in the hands of the few. We should in a sane manner try to remedy this danger, in spite of the sulka opposition of these few very powerful men, and with all their efforts to protect them in all their rights at the very time we require them to deal righteously with others.

When with steam and electricity modern business conditions went through the astounding revolution, which in this country began over half a century ago, there was at first much hesitation as to what particular governmental agency should be used to grapple with the new conditions. At

almost the same time, about 20 years since, the effort was made to control combinations by regulating them through the interstate commerce commission and to abolish them by means of the anti-trust acts, the two remedies therefore being in part mutually incompatible. The interstate commerce law has produced admirable results, especially since it was strengthened by the Hepburn law two years ago. The anti-trust law, though it worked some good, because anything is better than anarchy and complete absence of regulation, nevertheless has proved in many respects not merely inadequate but mischievous.

Twenty years ago the misuse of corporate power had produced almost every conceivable form of abuse, and had worked the gravest injury to business morality and the public conscience. For a long time federal regulation of interstate commerce had been purely negative, the national judiciary merely acting in isolated cases to restrain the state from exercising a power which was clearly unconstitutional, as well as unwise, for them to exercise, but which nevertheless the national government itself failed to exercise. Thus the corporations, monopolizing commerce, made the law for themselves, state power and common law being inadequate to accomplish any effective regulation, and the national power not yet having been put forth. The result was mischievous in the extreme, and only short-sighted and utter failure to appreciate the grossness of the evils to which the lack of regulation gave rise, can excuse the well meaning persons who now desire to abolish the anti-trust law outright, or to amend it by simply condemning "unreasonable" combinations. Power should unquestionably be lodged somewhere in the executive branch of the government to permit combinations which will further the public interest; but it must always be remembered that as regards the great and wealthy combinations through which most of the interstate business of today is done the burden of proof should be on them to show that they have a right to exist.

No judicial tribunal has the knowledge or the experience to determine in the first place whether a given combination is advisable or necessary in the interest of the public. Somebody, whether a commission or a bureau under the department of commerce and labor, should be given this power. My personal belief is that ultimately we shall have to adopt a national incorporation law, though I am well aware that this may be impossible at present. Over the action of the executive body in which the power is placed the courts should possess merely a power of review analogous to that obtaining in connection with the work of the interstate commerce commission at present. To confer this power would not be a leap in the dark; it would merely be to carry still further the theory of effective governmental control of corporations which was responsible for the creation of the interstate commerce commission and the enlargement of its powers, and for the creation of the bureau of corporations.

The interstate commerce legislation has worked admirably. It has benefited the public; it has benefited the managed and wisely conducted railroads, and in spite of the fact that the business of the country has enormously increased, the value of this federal legislation has been shown by the way in which it has enabled the federal government to correct the most pronounced of the great and varied abuses which existed in the business world 20 years ago. While the many abuses that still remain emphasize the need of further and more thorough-going legislation. Similarly the bureau of corporations has amply justified its creation. In other words, it is clear that the principles employed to remedy the great evils in the business world have worked well, and they can now be employed to correct the evils that further commercial growth has brought more prominently to the surface. The powers and scope of the interstate commerce commission and of any similar body, such as the bureau of corporations, which has to deal with the matter in hand, should be greatly enlarged so as to meet the requirements of the present day.

### State Control Ineffective.

The decisions of the supreme court in the Minnesota and North Carolina cases illustrate how impossible is a dual control of national commerce. The states can not control it. All they can do is to control intrastate commerce, and this now forms but a small fraction of the commerce carried by the railroads through each state. Actual experience has shown that the effort at state control is sure to be nullified in one way or another sooner or later. The nation alone can act with effectiveness and wisdom. It should have control both of the business and of the agent by which the business is done, for any attempt to separate this control must result in grotesque absurdity. This means that we must rely upon national legislation to prevent the commercial abuses that now exist and the others that are sure to arise unless some efficient governmental body has adequate power of control over them. At present the failure of the congress to utilize and exercise the great powers conferred upon it as regards interstate commerce leaves this commerce to be regulated, not by the state nor yet by the congress, but by the occasional and necessarily inadequate and one-sided action of the general judiciary. However upright and able a court is, it can not act constructively; it can

only act negatively or destructively as an agency of government; and this means that the courts are and must always be unable to deal effectively with a problem like the present, which requires constructive action. A court can decide to be faulty, but it has no power to make better what it thus finds to be faulty. There should be an efficient executive body created with power enough to correct abuses and scope enough to work out the complex problems that this great country has developed. It is not sufficient objection to say that such a body may be guilty of unwise or of abuses. Any governmental body, whether a court or a commission, whether executive, legislative or judicial, if given power enough to enable it to do effective work for good, must also inevitably receive enough power to make it possibly effective for evil.

Therefore, it is clear that (unless a national incorporation law can be forthwith enacted) some body or bodies in the executive service should be given power to pass upon any combination of agreement and every such combination of agreement not thus approved should be treated as in violation of law and prosecuted accordingly. The issuance of the securities of any combination doing interstate business should be under the supervision of the national government.

### Labor Unions.

A strong effort has been made to have labor organizations completely exempted from any of the operations of this law, whether or not their acts are in restraint of trade. Such exemption would in all probability make the bill unconstitutional, and the legislature has no more right to pass a bill without regard to whether it is constitutional than the courts have lightness to declare unconstitutional a law which the legislature has solemnly enacted. The responsibility is as great on the one side as on the other, and an abuse of power by the legislature in one direction is equally to be condemned with an abuse of power by the courts in the other direction. It is not possible wholly to exempt labor organizations from the workings of this law, and they who insist upon totally exempting them are merely proving that their status shall be kept wholly unchanged, and that they shall continue to be exposed to the action which they now dread. Obviously, an organization not formed for profit should not be required to furnish statistics in any way as complete as those furnished by organizations for profit. Moreover, so far as labor is engaged in production only, its claims to be exempted from the anti-trust law are sound. This would substantially cover the right of laborers to combine, to strike peaceably and to enter into trade agreements with the employers. But when labor "under-takes" in a wrongful manner to prevent the distribution and sale of the products of labor, as by certain forms of the boycott, it has left the field of production, and its action may plainly be in restraint of interstate trade, and must necessarily be subject to inquiry, exactly as in the case of any other combination for the same purpose, so as to determine whether such action is contrary to sound public policy. The heartiest encouragement should be given wage-workers to form labor unions and to enter into agreements with their employers, and their right to strike, so long as they act peaceably, must be preserved. But we should sanction neither a boycott nor a blacklist which would be illegal at common law.

The measures I advocate are in the interest both of decent corporations and of law-abiding labor unions. They are, moreover, pre-eminently in the interest of the public, for in my judgment the American people have definitely made up their minds that the days of the reign of the great law-defying and law-evading corporations are over, and that from this time on the mighty organizations of capital necessary for the transaction of business under modern conditions, while encouraged so long as they act honestly and in the interest of the general public, are to be subjected to careful supervision and regulation of a kind so effective as to insure their acting in the interest of the people as a whole.

Allegations are often made to the effect that there is no real need for these laws looking to the more effective control of the great corporations, upon the ground that they will do their work well without such control. I call your attention to the accompanying copy of a report, just submitted by Mr. Nathan Matthews, chairman of the finance committee, to the mayor and city council of Boston relating to the certain evil practices of various corporations which have been bidders for furnishing to the city iron and steel. This report shows that there have been extensive combinations formed among the various corporations which have business with the city of Boston, including, for instance, a carefully planned combination embracing practically all the firms and corporations engaged in structural steel work in New England. This combination included substantially all the local concerns, and many of the largest corporations in the United States, engaged in manufacturing or furnishing structural steel for use in any part of New England. It affected the states, the cities and towns, the railroads and street railways, and generally all persons having occasion to use iron or steel for any purpose in that section of the country. As regards the city of Boston, the combination resulted in practically outworking by collusive bids, plainly dishonest and supported by false affirmations. In its conclusions,

the committee recommends as follows:

"Comment on the moral meaning of these methods and transactions would seem superfluous, but as they were defended at the public hearings of the commission and associated to be common and entirely proper incidents of business life, and as these practices have been freely resorted to by some of the largest industrial corporations that the world has ever known, the commission deems it proper to record its own opinion.

"The commission dislikes to believe that these practices are, as alleged, established by the general custom of the business community; and this defense itself, if unchallenged, amounts to a grave accusation against the honesty of present business methods. To answer an invitation for public or private work by sending in what purports to be genuine bids, but which in reality are collusive figures purposely made higher than the bid which is known will be submitted by one of the supposed competitors, is an act of plain dishonesty.

"To support these misrepresentations by false affirmations in writing that the bids are submitted in good faith, and without fraud, collusion or connection with any other bidder, is a positive and deliberate fraud; the successful bidder in the competition is guilty of obtaining money by false pretenses and the others have made themselves parties to a conspiracy clearly unlawful at the common law.

"Where, as in the case of the 'Boston agreement,' a number of the most important manufacturers and dealers in structural steel in this country, including the American Bridge company, one of the constituent members of the United States Steel corporation, have combined together for the purpose of raising prices by means of collusive bids and false representations, their conduct is not only plainly obnoxious to the federal statute known as the Sherman anti-trust law. The commission believes that an example should be made of these men and that the members of the 'Boston agreement,' or at least all those who, in October or November, 1905, entered in fraudulent competition for the Cove street draw span, should be brought before a federal grand jury for violation of the act of congress of July 2, 1890. The three years' limitation for participation in these transactions has not yet elapsed and the evidence obtained by the commission is so complete that there should be no difficulty in the government's securing a conviction in this case."

I have submitted this report to the department of justice for thorough investigation and for action if action shall prove practicable. Surely such a state of affairs as that above set forth emphasizes the need of further federal legislation, not merely because of the material benefits such legislation will secure, but above all because this federal action should be part, and a large part, of the campaign to waken our people as a whole to a lively and effective condemnation of the low standard of morality implied in such conduct on the part of great business concerns.

### Duty of the Citizen.

The first duty of every man is to provide a livelihood for himself and for those dependent upon him; it is for every standpoint desirable that each of our citizens should endeavor by hard work and honorable methods to secure for him and his such a competence as will carry with it the opportunity to enjoy in reasonable fashion the comforts and refinements of life, and, furthermore, the man of great business ability who obtains a fortune in upright fashion inevitably in so doing confers a benefit upon the community as a whole, and is entitled to reward, to respect and to admiration. But among the many kinds of evil, social, industrial and political, which it is our duty as a nation to sternly combat, there is none at the same time more base and more dangerous than the greed which treats the plain and simple rules of honesty with cynical contempt if they interfere with making a profit, and as a nation we can not be held guiltless if we condone such action. The man who preaches hatred of wealth honestly acquired, who incites envy and jealousy and slanderous ill-will toward those of his fellows who, by thrift, energy and industry, have become men of means, is a menace to the community. But his counterpart in evil is to be found in that particular kind of multi-millionaire, who is almost the least envious, and is certainly one of the least admirable, of all our citizens, a man of whom it has been well said that his face had grown hard and cruel while his body had grown soft, whose son is a fool and his daughter a foreign princess, whose nominal pleasures are at best those of a tasteless and extravagant luxury, and whose real delight, whose real life-work, is the accumulation and use of power in its most scurid and least elevating form. In the chaos of an absolutely unrestricted commercial individualism under modern conditions, this is a type that becomes prominent as inevitable as the marauder baron became prominent in the physical chaos of the dark ages. We are striving for legislation to minimize the abuses which give this type its flourishing prominence, partly for the sake of what can be accomplished by the legislation itself, and partly because the legislation marks our participation in a great and stern moral movement to bring our ideals and our conduct into measurable accord.

## Money-Making Ways of Using Want Ads

### To Interest Capital

Most of the great conveniences we enjoy today were invented by poor men who struggled for years to get Capital interested. Perhaps you have something of merit appealing to what the people want. One of the surest ways to interest Capital is for you to write your story simply, in a few words, and insert on our Classified page under the heading "Business Chances." Business men with money read this column. And, Mr. Business Man, perhaps you have money to invest in meritorious enterprises. Keep a daily "tab" on the "Business Chances" column. Many men have made fortunes this way. The chance of others is your chance. The chance to "get in touch" costs but a few pennies.

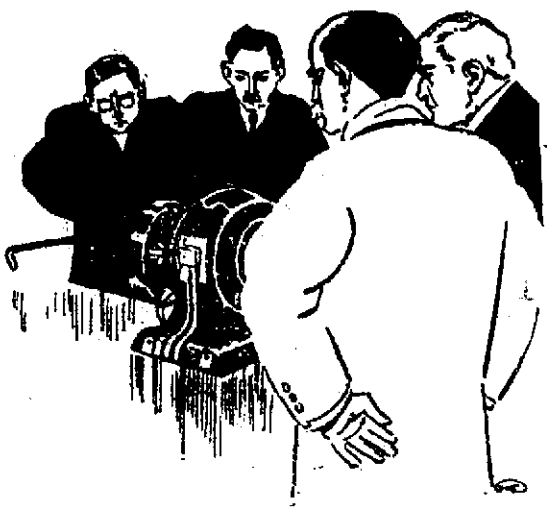

### EXAMPLES

YOUNG MAN HAS INVESTED VALUABLE TIME saving device for individual lighting of the home. Experts pronounce success. Want the help and financial assistance of business men. Gladly demonstrate practicalness of invention. Address R. L. 6, this office.

HAVE \$5,000 WHICH I WILL PLACE IN A PROFITABLE, sound manufacturing enterprise, paying dividends. Or, will invest with others, double this amount to enlarge good business. Address with full particulars, D. G. 26, this office.

All of our little Want Ads are meritorious BUSINESS CHANCES—for EVERYBODY. For ALL classes, for all purses, for all grades of brains, the Classified columns of this paper offer SOMETHING—of profit. This means YOU who read this. Turn to our Classified page—and LEARN.

## MURDERED

Man's Picture Secured for Publication in Advocate—Hurley Had Good Service Record.

After some little trouble the picture printed in today's Advocate was secured for publication. It is about the only picture of Matt Hurley in existence and the family of the murdered man did not want to let the

picture get out of their hands. Finally Mr. J. T. Hurley of Marion, consented to give it to the Advocate for publication.

Hurley was a soldier and enlisted as a musician in Co. B, Ninth Battalion (colored) Ohio Volunteer Infantry. He enlisted at Columbus where the colored company was stationed, and served in the Second Army corps. The records of the company show faithful service and an honorable discharge.

SOX-IN-LAW DOES NOT KNOW WHAT PRESIDENT WILL DO IF STAMPEDE OCCURS.

Longworth Declares for Taft and Congressman Landis Becomes Sarcastic.

Pittsburg, April 28.—If the Chicago convention stampedes to him, I do not know what his attitude will be, but I am sure that if he has his way, he will not be the Republican nominee.

This remark regarding his father-in-law, President Roosevelt, was made here Friday afternoon by Congressman Nicholas Longworth of Ohio, who came to speak at the American club banquet last evening, and the remark caused much comment, as it is regarded as somewhat in the light that the President may take the nomination if forced on him. Mr. Longworth made this remark in response to the direct question: "Is there any chance that President Roosevelt will be the nominee?"

Longworth also declared for Taft. This brought out a rather sarcastic remark from Congressman C. B. Landis of Indiana, who heard it.

"Oh, of course, Longworth is for Taft all right. He has to be. Papa said so. Out in Indiana, however, we think a lot of the chances of Mr. Fairbanks."

### MUSIC HALL

Frank Midney, an eloquent speaker of note, will address the public at Music Hall tonight. His subject will be "Socialism, a Cure for Paucity." The public is cordially invited to be present and hear some live topics discussed.

The executive committee of the relief department of the Pennsylvania lines west has announced that an election for the purpose of selecting an advisory committee will be held Friday, May 22, at which time every member of the department will cast his ballot for some one of the many candidates on the various sub-divisions of the lines west.

## THROUGH FOOT

Young Lad Shoots Self Accidentally While Handling Winchester Rifle.

Paul, the 15 year old son of Mr. John Duley, of the Wehrle Stove Works, residing several miles west of the city in Clouse's lane, on the Newark and Granville road, had the misfortune to meet with a very painful accident Monday. He was engaged in handling a Winchester rifle when it slipped from his hands and fell to the ground. In falling it was discharged the bullet entering the left foot. Dr. Barnes of Granville was called and dressed the injured member.

## CLEAR THE COMPLEXION OVERNIGHT

Pimples, Rash, Eruptions, Etc. Quickly Eradicated by New Skin Remedy.

Since its discovery one year ago, poslam, the new skin remedy, has, in its extraordinary accomplishments, exceeded the most sanguine expectations of the eminent specialists who gave it to the world. It has cured thousands of cases of eczema and eradicated facial and other disfigurements of years' standing. The terrible itching attending eczema is stopped with the first application, giving proof of its curative properties at the very outset.

In less serious skin affections, such as pimples, rash, herpes, blackheads, acne, barber's itch, etc., results show after an overnight application, only a small quantity being required to effect a cure. A muddy or sallow complexion is noticeably improved by a single application. Those who use poslam for these minor skin troubles can now avail themselves of the special 50-cent package, recently adopted to meet such needs. Both the 50c cent package and the regular \$2 jar may now be obtained in Newark at Frank D. Hall's and others leading drug stores.

Samples for experimental purposes may be had free of charge by writing direct to the Emergency Laboratories, 32 West Twenty-fifth street, New York City.

## ODD FELLOWS

Observe Eighty-Ninth Anniversary of Founding of Order in America Sunday Afternoon.

Odd Fellows' Day or the 89th anniversary of Odd Fellowship in America, was observed by Newark Odd Fellows at Odd Fellows' Temple Sunday afternoon. There was a large attendance and the affair was a very enjoyable one.

Judge C. W. Seward made an interesting talk on Odd Fellows, giving a partial history of the order and also dwelt on its principles and its work. His remarks were highly pleasing to the order.

Joseph A. Bennett was the speaker. He paid high tribute to the fraternal spirit of the orders and how founded homes to care for orphans and widows.

## CENTURY

Since First Court Was Held in Knox County—Licking County Man Was Judge.

Mt. Vernon, April 28.—It has been suggested that on next Monday morning some sort of celebration be held at the court house in honor of the one hundredth anniversary of the first session of court held in Knox county. The anniversary occurs Friday of this week, but no court will be in session that day. The May term will be convened next Monday. Judge William Weston of Licking county was the first judge to hold court in Knox county. Matthew Meritt was foreman of the first grand jury, and the first case tried was that of Ohio vs. William Hedrick.

## NEW ELECTRIC LINE INCORPORATES AND ELECTS OFFICERS

Mr. J. A. Chilcote went to Columbus Monday and returned with the charter of the Ohio, Lake Erie and Eastern Railroad company. The incorporators met at the law office of Kibler & Montgomery, in the Trust building, opened the books and subscription, and the full amount of the capital stock of the company was subscribed for.

Mr. Charles E. Turner, of New York, the contracting engineers, Ellis Evans & Co., 50 Broadway, New York, were present, representing the firm that has undertaken the building of the road. Afterwards a stockholders' meeting was had at the same place, at which all the stockholders were present in person or by proxy, and the following directors were elected: Edward Kibler, J. F. Shrontz, J. A. Chilcote, F. E. Elliott, Edward Deaver, Frank Lee Owen, George E. McCully and E. W. Cray-

ton. The directors were sworn in by F. M. Black, notary public, and they proceeded to organize by the election of the following officers:

President, Frank V. Owen.  
Vice President, J. F. Shrontz.  
Treasurer, J. A. Chilcote.  
Secretary, F. E. Elliott.  
Counsel, Edward Kibler.

After the organization of the company a resolution was passed increasing the capital stock of the company to \$2,000,000, and increasing the number of directors to 11, and the stockholders elected three New York gentlemen into the directorate.

The directors authorized the issuing of \$2,000,000 of bonds to finance the road, and on Thursday of this week a representative of the company will sail for Belgium to complete the financing of the road.

The Guaranty Savings and Trust company of Mt. Vernon, are the trustees of the mortgage bonds.

## AMUSEMENTS

### TONIGHT'S OPERA.

It is no small credit to the director of "Fra Diavolo," Mr. Herve Reynolds, that he has inspired his chorus to do very clever singing, and like his principals, the members have been selected with care. They muster forty singing voices.

Of the cast, Miss Eleanor Place, who created an excellent impression in "The Chimes of Normandy" is intrusted with the role of Zerlina. This she sings with great sweetness, especially the prayer in the slumber scene.

Miss Alice Beckman assumes the role of Pamela with much decision and in good voice. Miss Beckman is new to Newark audiences, having been away for a year, pursuing voice culture.

The men of the cast have been already mentioned. Too much cannot be said of Mr. Will Reynolds as Diavolo, Fiora's Lorenzo, nor Mr. Ben Hoover's Milord. The sextet from Lucia di Lammermoor will be interpolated exactly according to tradition and the play staged and costumed correctly. From a musical standpoint "Fra Diavolo" is far and away the most ambitious offering that Newark has ever had in amateur opera work.

It is given by Mr. Herve Reynolds in the interest of The King's Daughters, and deserves a large and enthusiastic audience.

### DANIEL SULLY.

At the Auditorium Thursday evening, Mr. Daniel Sully will appear in his comedy drama "The Golden Rule" which scored tremendous success when presented for the first time a short time ago. Mr. Sully is enjoying a brilliant season with his new play, and the fact that everywhere it has been presented, the managers have insisted on a return engagement is ample evidence that managerial judgment in this case coincides with public approval. Mr. Sully is meeting with the success he deserves in his efforts to present the right kind of play to the right kind of people.

### ORPHIUM.

It's a first class show both on paper and in playing at the Orphium this

week. There is no lack of variety to the entertainment as it is composed of musical comedy, singing, feats of skill, music and to top all off, there is a real live gray wolf thrown in.

Mark and Laura Wavels deserve especial mention for their fun evoking sketch entitled "Hans the Grocery Boy." It is full of clean laughs and the work of the pair is of the highest order. It is the aim of the team to sing the biggest topical song hits of the day and they succeed admirably.

John A. West the musical Brownie, brought a laugh on his appearance with his grotesque makeup and kept the audience in continuous applause during his 20 minutes. His talk, the musical hats, the wonderful singing wolf, and the Mexican song brought peals of laughter and the cornet solo played with wonderful expression and plain, clear, soft tones, was the best heard in Newark.

The Valoise Bros. are a pair of skilled athletes seldom equalled. They perform feats that are seldom attempted by other artists in their line, especially their closing feat which is performed by only one other pair in this country, that being the Great O'Brien Bros.

Ruth Chandler, "That Unhappy Maid," may be unhappy herself, but she certainly sends the patrons of the theater away not only happy, but bubbling over with joy. She makes up as an old maid and it is one continual scream from the first. Her stories are all new and witty, and she seems to have a charm about her in spite of her make up, that would win any audience.
